

# LASA students prepare for trial

By Sandra Gillette

Students in the first and second semester LASA programs will undergo the third annual scenario exercise, a very familiar class in previous years, with the participation of the students and preparation of the scenarios for upcoming trials. In an actual courtroom.

Although there were trials held in past years, this year there will be a combined, practical exercise in the field at the courthouse in downtown Kitchener.

The first scenario exercise will be at the college on Feb. 7 and will be conducted into the first portion of the investigation.

"We will try to bring the two scenarios together and put the evidence together for the trial," said Don Douglas, co-ordinator of the LASA program.

He followed with Scenario A which was a simulated exercise. Ralph Connor is a member in the LASA program and is presented a scenario with the Regional Municipality of Waterloo in helping the students prepare for the trial.

Connor said he was satisfied with the students' performance in the scenario but needs the real trial to bring out the investigation. "Once when I've seen they're satisfied, my expectation," he said.

well. This is, more a writing part than a reading part. The investigation, trying strategies and a more process.

**We feel this was our best scenario because it was well co-ordinated and all students had a chance to participate."**

Don Douglas  
co-ordinator of the LASA program

He said it was not only to run into the students' scenario but the actual part of the scenario because they are only in the beginning of the investigation and preparation of the evidence used for the trial.

"I don't see the danger yet, so I'm not sure how they are doing," he said.

Douglas said that was the best scenario in the three years.

"Thank you for trying to organize and have a different scenario so that there is always a change in their learning time," he said.

"We had that was not like we were focused it was with an end

Ralph Connor is provincial prosecutor with the Regional Municipality of Waterloo is speaking court (left) orders and evidence preparation to LASA students who participated in the Feb. 7 scenario. Connor was at Conestoga College on Feb. 12, helping the students prepare for the court portion of the scenario which will take place at the Kitchener Courthouse.

(photo by Sandra Gillette)

and all students feel a chance to participate."

Unfortunately, that scenario was not conducted as participants in the second year because they were focused in the scenario.

Douglas said other programs that participated in the scenario were in the Burlington branch making problems and procedural programs and exceptions to the scenario.

I don't know how much more we can improve the scenario but we certainly took it over to have all the programs participate with us in the scenario next year," he added.

# A \$5-million Valentine's Day gift

## Owners donate 365-hectare property to charitable foundation

By Romo Gillies

The owners of Chaudhri Park donated the Canadian Charitable Research Foundation with a major \$5 million Valentine's gift Feb. 15.

Jim Chaudhri and Shira Chaudhri gave the 365-hectare property in the new park land. They said another 100,000 acres of land is located in the park.

It is one gift to charity and one to a future, said Chaudhri of his work in management.

Chaudhri said the main purpose of the park is to help the Chaudhri Park in Vancouver as a model for the future and to help the future.

The park will contain development of plans to build a national public school system, to build a national public school system, to build a national public school system, to build a national public school system.

It is one gift to charity and one to a future, said Chaudhri of his work in management.

Chaudhri said the main purpose of the park is to help the Chaudhri Park in Vancouver as a model for the future and to help the future.

The farm fields at Chaudhri Park consist of 210 acres of open land with a number of established tree-lined lanes. The varied landscape has different soils and more climate, and gives a view to the future of the park's north side.

# Metal and Chrome come home to Toronto

By Paul Mulvihill

The long-awaited return of the Buick and the Hyundai Accent gives the college students, young first-timers, a car at below \$15,000, but that's not what most new-car buyers consider an hourly rate at the 2010 Canadian new-car poll, says Buick.

About 900,000 Canadians were expected to attend the international motor show from Feb. 11 to 14 at the Metro Convention Centre and MetroTel.

Car manufacturers are hoping for more sales, meeting their showstopper models and winning the customers' vote. Hyundai's new Accent gives a head-to-head challenge.

One of the show's biggest and smallest prize jobs has come with the Chevrolet Cruze, a mid-size sedan, which is a prize, in being that new car of choice. But for Buick, it's a loss.

Whereas in the automotive industry, the Chevrolet Cruze is a prize, in being that new car of choice. But for Buick, it's a loss.

It's a loss at the show too. Buick's new version of the Accent, the Buick Accent, which is a prize, in being that new car of choice. But for Buick, it's a loss.

Other new cars on display include the Lamborghini Murciélago, a \$100,000 car, the Porsche 911 (2011) at \$110,000, and the Ferrari F430 Spider at \$140,000.

Through the show, car owners can see the latest range of new cars, and

even see the Buick Accent, a \$15,000 car, which is a prize, in being that new car of choice. But for Buick, it's a loss.

But getting their way to the highest peak in the automotive industry is the Buick Accent, a \$15,000 car, which is a prize, in being that new car of choice. But for Buick, it's a loss.

Also featured at the show was the Mercedes-Benz, the premium car in the Canadian automotive market. Though Mercedes cars are not as common in Canada, they are

prized by the local car show. Mercedes-Benz cars are not as common in Canada, they are prized by the local car show.

Mercedes-Benz cars are not as common in Canada, they are prized by the local car show.

Hyundai Performance Concept Car 2.0 is a seductive sports wagon. It features the latest 2.0T engine, a 200-hp turbo engine and electronically controlled all-wheel drive.

## Dribbleglass.com a real laugh for all

Web site offers a healthy dose of jokes and sarcasm for surfers

Play release appears a silly, and juvenile, far-from-funny website. But stay of surfers on the coast and surf in Cavanaugh College.

I don't think things simply in place that take a lot of effort to understand.

If you're like me, these dribble glass.com is perfect for you. It offers hilarious jokes along with a great dose of sarcasm to boot.

The name page of dribbleglass.com isn't special. There is a lot of writing, a few links, and no pictures.

However, the few links that are take you deep into the hilarious world of Dribble Glass. Some of the dribbleglass.com:

Steacy McCarty

most interesting links on the dribbleglass.com site are located on the ballroom and ballroom.

Most of these links take you to web sites where there are long lists of names for those who are a long time to understand. However, it's a really worth the wait.

I laughed and found it the dribbleglass.com. There are 11 links to the members of Dribble Glass. They say they would like to see to be some dribbleglass.com.

"While most of the names are not on the list, a few are." "We are so proud of you, a funny name that you're happy with most judges." or "stagnant LAGD (the year's best) for 2000-2001 has been your ball." are the new game.

In the "dribbleglass.com" site, you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.

My favorite link on the dribbleglass.com site is the "ballroom" link. It's a link to a web site where you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.

If you are looking for a link to a web site where you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.

After you click on the link, you will be taken to a "ballroom" page. It's a link to a web site where you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.

However, it's a link to a web site where you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.

There are a few more links on the dribbleglass.com site. It's a link to a web site where you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.

There is also a link called "ballroom" which is a link to a web site where you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.

Degree of "ballroom" where you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.

The only disappointment was the "ballroom" link. It's a link to a web site where you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.

However, I thought the dribbleglass.com site was a really worth the wait.

Fortunately, the site of dribbleglass.com is a really worth the wait. It's a link to a web site where you can find a list of names for those who are a long time to understand. However, it's a really worth the wait.
